

Our main expertise lies in multiday destination weddings and accompanying local experiences for more than 6 years now.

Members of our planning & coordination team speak 6 languages, have background in finance & hospitality, which helps us to face any challenge while preparing your dream celebration.

Weddings should be beautiful and emotional, but also fun and entertaining for your guests and of course for YOU!

The most important for us - is to be honest, transparent and give a 100% while bringing your unique and dreamful celebration to life.

And it is equally vital that this trust and dedication is mutual: for this trip - we are partners, we are your trustees.

Even the imperfect can become in right hands and with positive attitude.
