ANAÏS MR. PHOTOGRAPHIE

Wedding photographer, I capture authenticity, natural movement and raw emotions to create elegant images that truly reflect who you are.

My vision of wedding photography is simple: allowing you to fully live your day while knowing that every important moment, as well as the most fleeting ones, will be captured with sensitivity.

My approach is discreet and natural. I don't make you pose and I don't create artificial setups. I blend in with your loved ones to document your day as it genuinely unfolds.

Over the years, I have developed a style that combines honest documentary photography with an aesthetic sensibility inspired by fashion. This creates images that feel both spontaneous, modern and timeless, photographs that will remain strong and elegant even decades from now.

My goal is simple: that when you look back at your photos, you can truly relive your wedding day and feel again the energy, the laughter and the emotion of that day.

My name is Anaïs, but everyone calls me Ana, and I can't wait to hear your story ✨
